# Wire Rope Isolator

**Made in the UK.**

These wire rope isolators are machined and manufactured in the UK. After many years of testing various isolators of different types, we decided to make our own, incorporating the features we would like ourselves. One of these features is the ability to captivate a nut to make assembly easier. Only 1 tool required.

The height and stiffness is also adjustable, by altering the length of the wire rope however our standard size shown is suitable for most camera applications between 3kg and 15kg – depending on the number of isolators used in the mount.

We can also machine and assemble complete mounts to suit specific applications and sizes.

Capacity: 1 – 6kg  
Mounting Holes: for M6 @ 50mm centres
